With absolute certainty, those students who partake in the MathCounts experience throughout their elementary careers place themselves in a very enviable position as they head into high school. Virtually every year, the majority of our top Algebra I 8<sup>th</sup> grade students are those who have been involved in MathCounts.

Math Club members will have the opportunity to participate in various math competitions throughout the year and strive to make the MathCounts team that consists of eight students who will represent Lake Castle Madisonville in the New Orleans Chapter and Louisiana State competitions. (Student participation in competitions is optional.)

The Math Club will meet on Fridays from 3:15-5:15 P.M. beginning September 9. In addition, a special session focusing just on geometry will be held on Thursdays from 7:15–8:00 A.M. beginning September 8. Students may attend either or both of the sessions; however, only students that attend on Fridays will be eligible for the MathCounts competition. The MathCounts team will also hold team practices on Saturdays beginning in January.

The entry fee is \$50 per student (t-shirt included) for the Friday afternoon sessions. There is no charge for the Thursday morning sessions. Students must arrive promptly. Please note that Math Club is NOT to be used in lieu of before or after school care and uninterested students will be sent to BSC or ASC at a charge to their parents. Only students truly interested in working hard to improve their math skills should attend Math Club.

A meeting for interested parents will be held Tuesday, August 16 from 6:15-7:00 P.M. to meet the instructors/coaches and to coordinate snacks for the Friday afternoon sessions. If your child is interested in attending either of the Math Club sessions, please fill out the form below and return it to Mrs. Harvey by August 22 with the \$50 fee—checks payable to Lake Castle.
